OUR FEATHERED FRIENDS

The latest Special Exhibition at the **Peterborough Museum & Archives** features an exciting collection from the Canadian Museum of Nature!

Come and experience it for yourself! The best way to learn about birds is to watch them! Ornithologists and budding birders will be introduced to a bird watching adventure, including how to identify Canadian bird species and attract them to our own back yards! **The Peterborough Museum & Archives** is proud to host this special exhibition that allows you to hear unique birdsongs while studying the detail and delicate beauty of these winged wonders -- which is so often difficult to do in the great outdoors.
